

Operator lighting solutions

Are low light areas with limited visibility a challenge for your operation?

If so, the right truck light options can help enhance operator visibility, productivity and decrease associated truck, product and facility damage.

Rear work lights

- Offer additional lighting while unloading trucks or moving in dark areas
- Reverse travel activated
- Styles vary among truck models

Dome/compartment lights

- Brighten operator compartment as needed
- May help enhance visibility of controls, paperwork and other accessories
- Often mounted under overhead guard

Work lights/lamps

- Illuminate poorly lit areas; often used for outdoor nighttime operation
- Adjustable to meet operator and application requirements
- Available in single and double options
- Can be installed on truck or mast

Lights can be ordered on new trucks, or obtained and installed at your local Yale® dealer. Choose from halogen or LED options and adjustable or stand-alone versions; available with fan packages.

Awareness and confidence are key. With Yale you get the expert insight needed to help enhance the health of your operation.

For more information, contact your dealer or the Yale Awareness Support Line at 1-844-337-1645.
